Point Transfers

Faan	Points	Faan	Points
0	1	7	48
1	2	8	64
2	4	9	96
3	8	10	128
4	16	11	192
5	24	12	256
6	32	13+	384

This table converts faans into points by half-spicy scale 半辣上.

SHARED ACCOUNTABILITIES 陪銃制 dictates that a winner receives points from other players, weighted by their level of responsibilities. When a discard feeds the winning hand, the feeder is deemed at fault, therefore contributes to a greater share of points to the winner.

Win by Discard 出銃: The feeder pays the winner Points x2, the other two players pay Points x1 (i.e. winner receives 4x in total)

Win by Self-Draw 自摸: Each player pays the winner Points x2 (i.e. winner receives 6x in total)

Code of Conduct

Build community first! Be curteous, practice good sportsmanship, and celebrate each others' achievements.

1. Use name tags. Say hello. Make friends.
2. Announce calls clearly. Mahjong is a social game.
3. No take backs. Once the next player takes their turn, your move is locked.
4. Draw/Call before discard. Leave time for others to react.
5. Attend to walls. Present walls for others to reach.
6. Rude or discriminatory behaviours will not be tolerated, and may result in expulsion from the league without refunds.

BAO PENALTIES 包牌制 are applicable when one player has called 3+ sets that comprise a base hand worth 5+ faans, and subsequently win as showcased.

Nine tiles laid 九章: When the winner had 3 called sets visible, the feeder shall pick up the bill for everyone (i.e. feeder pays 4x in total, while other two players pay nothing)

Twelth tiles laid 十二章: When the winner had 4 called sets visible, the feeder picks up the bill for everyone (i.e. feeder pays 4x in total, while other two players pay nothing). The enabler who discarded the tile leading to the 4th call shall pick up the bill for everyone if winner wins by self-pick (i.e. enabler pays 6x in total, while other two players pay nothing).

*Except when the feeder reveals that their discard was forced, e.g. feeder only has dots, so they had no choice but to discard a dot, even though another player already called dots 3 times. In this scenario, regular payout rules prevail.
